

Our 24" square electric pull boxes are 30" deep and have one knockout or duct bank window on each side of the pull box. However, we can build your electric pull box to suit your needs.

Concast pull boxes work great for solar industry applications, and are used to interface with the Fibercrete trench system and also to stand alone and aid in pulling cables.

EcoDirect offers battery boxes, racks and enclosures for off-grid energy storage applications in solar PV systems. These products support the most common battery types.

- A good substitute battery box pull handle for your broken or worn out one. - Strong load bearing capacity and firm installation, not easy to fall to hold your case easily.
