

This reference design focuses on an FTM utility-scale battery storage system with a typical storage capacity ranging from around a few megawatt-hours (MWh) to hundreds of MWh.

Whether you're developing cutting-edge battery storage solutions or large-scale utility enclosures, our team is dedicated to providing the highest quality products from prototype to production.

We fabricate structural frames and enclosures for lithium-ion, lead-acid, and solid-state battery applications across the energy, transportation, telecom, and industrial sectors.

Designing Industrial Battery Rooms: Fundamentals and Standards Industrial battery rooms require careful design to ensure safety, compliance, and operational efficiency. This article ...
