

Stainless steel casing power distribution self-cooling

CASING Coil casing material shall be of G90 galvanized steel, 16 gauge minimum. Heavier gauge and optional material casings are available as required. Intermediate tube supports are to be ...

Features Horizontal multistage non-self-priming centrifugal pump. Excellent corrosion resistance by stainless-steel casing and impeller. Robust and Compact design. Designed for Continuous ...

Johnson Screens is a leading manufacturer of stainless steel and PVC well screens for water well, environmental, and oil and gas applications. Our continuous Vee-Wire® slot design allows for ...

Base Series Quiet Stainless Steel towers are factory assembled, crossflow cooling towers, designed to serve air conditioning and refrigeration systems as well as industrial process loads ...

Class 600 towers are field-erected, heavy duty, splash-fill, crossflow cooling towers of wood construction designed to serve all normal cooling water systems--as well as those "dirty ...

Boldrocchi T.E. is a worldwide manufacturer of industrial cooling systems: discover all the benefits and technical datas of our stainless steel cooling tower CMK.

Features Horizontal multistage self-priming centrifugal pump. Excellent corrosion resistance by stainless-steel casing and impeller. Robust and Compact design. Designed for Continuous ...

Welded Connections: Continuous and watertight. Collection Basin: Material: Stainless steel. Strainer: Removable stainless-steel strainer with openings smaller than nozzle ...

At United Industries, we manufacture 316L austenitic stainless steel tubing purpose-built for 2PD2C environments. Our tubing enables safe, efficient, and reliable fluid transport under high ...
